

Award Winning Paving Designed with the Environment in Mind

National Winner 2007 - Innovation Award
Community Recycling Network for Scotland

Mix together a generous amount of recycled glass cullet, add a good dash of natural rainwater, the finest cement and a pinch of mineral dye. Finally mix together and serve on a well prepared bed of foundation material

Recycled glass pavers, designed for patios, urban spaces, reception areas, office suites, open spaces & regeneration projects.

Compliant with British Standards (Test Certificates available N/mm²).

Full range of sizes available
